-----  
Our speaker for the evening will be Mr. Earl Ijames, curator at the North Carolina Museum of History, Raleigh North Carolina. His subject, Blacks in Confederate Grey and US Colored Troops. Were there African Americans that fought for the South in the War Between the States? Were they slave's are free men are both? For years you have heard this story, now come hear the truth. Why not invite some of your Black friends, they may want to know.

-----  
Compatriots, we are working hard to keep our meeting interesting, informative and fun! We need for every Confederate to support these meetings, so we can continue our mission of defending the good name of YOUR Confederate Ancestor. We the Sons of Confederate Veterans, owe no apologies for anything our Fathers did while defending our homes from the invaders. Shame on every Southern that does not stand up for his family and feel pride in the boys in grey. Shame on all that would think his flag and symbols should be thrown in the ash can of history.

I need for you to help me sell tickets for this event. Some members have bought 10 seats. How many will you take and sell? Call me if you need more tickets.
